

**PPS MINI PROJECT**  
**BANK MANAGEMENT SYSTEM**

**Shaurya Srinet**  
**RA2111032010006**  
**CSE IOT U2**

# **SYNOPSIS**

In this project, you can create a new account, update information of an existing account, view and manage transactions, check the details of an existing account, remove existing account and view customers' list.

Overall, with this project, you can perform banking activities like in a REAL bank. Bank management mini project in C is a console application without graphics. It is compiled in Code::Blocks with gcc compiler.

The source code is password protected (password is 1234).

In this bank management system project in C, file handling has been used for almost all functions. File has been used to store data related to new account, transaction, editing of account information and viewing of account information.

# SOURCE CODE

```
#include<stdio.h>

CUSTOMER ACCOUNT BANKING MANAGEMENT SYSTEM

██████████ WELCOME TO THE MAIN MENU ██████████

1.Create new account
2.Update information of existing account
3.For transactions
4.Check the details of existing account
5.Removing existing account
6.View customer's list
7.Exit

Enter your choice:
```

# ***(1) Creating an account***

```
Enter the account number:1409912731

Enter the name:Shaurya

Enter the date of birth(dd/mm/yyyy):02/10/2003

Enter the age:18

Enter the address:Delhi

Enter the citizenship number:04521

Enter the phone number: 9999847323

Enter the amount to deposit:$10000

Type of account:
    #Saving
    #Current
    #Fixed1(for 1 year)
    #Fixed2(for 2 years)
    #Fixed3(for 3 years)

    Enter your choice:1

Account created successfully!

Enter 1 to go to the main menu and 0 to exit: _

## ***(6) List of all customers registered in the system***

The screenshot shows a terminal window with a title bar indicating the file path: C:\Users\Shaurya\Desktop\SEM 1 SUBJECTS\PPS\C\projects\bank management system\bank management system.e. The terminal displays a table of customer data with four columns: ACC. NO., NAME, ADDRESS, and PHONE. There are two rows of data. Below the table, a prompt asks the user to enter 1 to go to the main menu and 0 to exit.

ACC. NO.	NAME	ADDRESS	PHONE
1167367031	Pragya	Jamshedpur	7717741252
1409912731	Shaurya	Mumbai	9999847323

Enter 1 to go to the main menu and 0 to exit: \_

## ***(7) Exit***
